

CONSENT FORM

Permission to take and use photographs and/or video footage

Purpose

The Australian Skills Quality Authority (ASQA) requires Registered Training Organisations (RTOs) to be able to demonstrate a trainer's compliance to the Standards required for VET training.

Therefore, occasionally, to suit ASQA requirements, we need to seek permission that allows a participant to be photographed or filmed for the purpose of obtaining evidence during a training session.

This allows the RTO to complete quality control requirements and continuous improvement processes.

The purpose of the footage is to review the training session, not the performance of the student.

Information will not be distributed publicly; however it may be used as evidence of observations made at the review or at the request of ASQA.

Consent

I hereby give permission for photos or video footage taken of myself during the training session to be used for quality control and continuous improvement purposes.
